

Performance Parts Intellisys SG Control Panel Retrofit Kit for Atlas Copco ZR/ZT Oil-Free Compressors

Performance Parts now offers the Intellisys SG Controller retrofit kit for Atlas Copco ZR/ZT oil-free air compressors.

Features

- Minimal buttons with prompting, lead-through button functions
- Multiple, simultaneous displays
- Menu-style display presentations
- LCD display – easily readable in dark or bright light
- Set points that can be changed while the compressor is running
- Easy access to machine data for last 15 alarm conditions
- Real-time clock with time stamping of stored alarm histories

Advantages of Operation with an Intellisys SG Controller

- Precise pressure control
- Multiple unit control capability
- Maintains plant air pressure during system demand instability
- Improved diagnostic capability, virtually eliminating downtime
- Kits can be installed on most Atlas Copco competitive units in as little as eight (8) hours.

Intellisys SG Conversion Kits

The Intellisys SG Control Panel retrofit kit includes everything necessary for an installation. The kits have been designed for ZR and ZT compressors and have established CCNs. We will supply all parts to complete the installation – from wiring to the controller.

Standard Monitored Features

- 1st and 2nd stage discharge pressure
- Frame oil pressure
- Package discharge pressure
- 1st and 2nd stage discharge temperature
- 2nd stage Inlet temperature
- Frame oil temperature
- Package discharge temperature
- Package inlet water temperature (optional)
- Package outlet water temperature (optional)
- Remote start / stop
- Air filter pressure drop (atmospheric units only)
- Power out restart
