

ServiceCare

Eliminate the Inconvenience

Let Thermo King Western maintain and protect your compressed air system with ServiceCare

A properly maintained compressed air system will provide years of trouble-free, dependable service.

Thermo King Western's ServiceCare program is our first level of protection for your compressed air system.

Our factory trained service technicians will provide all of the required preventive maintenance service on a regular schedule. The preventative maintenance can be scheduled monthly, quarterly, or annually depending on your specific needs.

ServiceCare, is an affordable, fixed cost, no surprises, service contract that allows you to easily budget for your yearly maintenance costs.

With ServiceCare, your internal resources can spend less time on nuisance air compressor issues, making them available to do other things in your facility.

Increased reliability

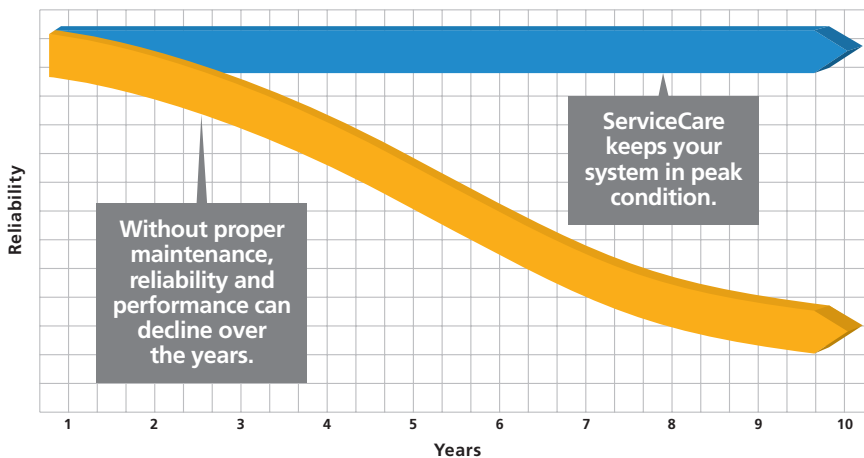

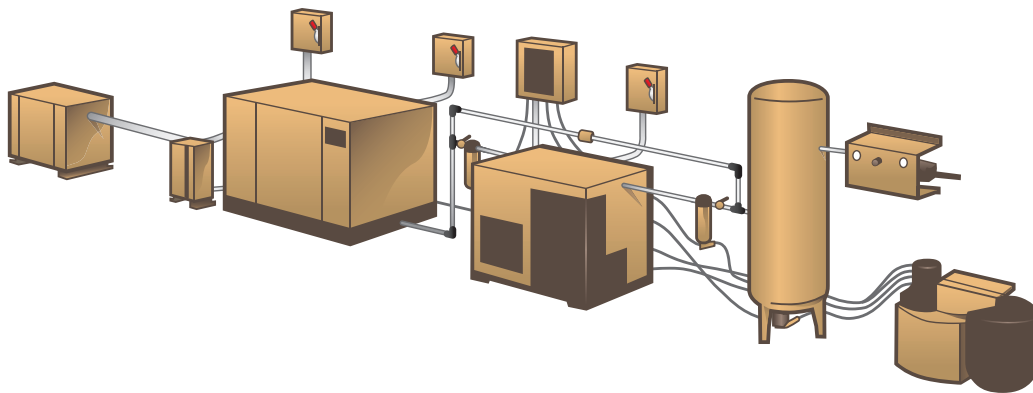

Fixed cost

Expertly trained technicians

Predictive monitoring

Without proper maintenance, reliability and performance can decline over the years.

ServiceCare keeps your system in peak condition.

With ServiceCare we're committed to keeping your compressed air system operating at it's peak - delivering reliable performance 24 hours a day every day.
